Forecast for Tuesday 16 Nov 2021

Weather: Mostly dry and cloudy start with the odd spot or light rain or drizzle but bright spells developing by late morning. A dry start to the afternoon but thicker cloud and outbreaks of rain will arrive from the northwest later. This will clear in the late evening then dry with clear spells.

Chance of cloud free mountain/hill tops above 600m: 20% at first, becoming 80% by early afternoon then 30% for a few hours from late in the afternoon.

Visibility: Areas of cloud down to low slopes at first giving very poor visibility, mainly in the south, but gradually lifting during the morning. Good for a time in the afternoon but low cloud developing again above about 600m as the rain arrives later.
